Select Your Local Chapter			

The student should select the chapter for the school they are attending. If the school does not currently have an APICS chapter, then they will need to select one of the “at-large” options. Many professional chapters will have a “student at-large” chapter. This will help connect the student to their nearest professional chapter. This option is not available in all areas. In that case, the student will need to select “Student Member-at-Large”
