\$0 for Student Members

**Registration closes on
Monday, December 14th.**

The tour of QuadMed's West Allis facility includes an onsite primary care clinic, optical, dental, fitness, physical therapy, and pharmacy.

QuadMed, LLC, based in Sussex, Wisconsin, is a subsidiary of Quad/Graphics. In 1990, Harry V. Quadracci, the founder of Quad/Graphics, had become frustrated with soaring medical costs and there were a growing number of complaints about problems with medical claims and the poor quality of medical care his employees were receiving. Harry's idea was to "cut out the middle-man" by bringing primary care in-house and transforming the company from a purchaser of health insurance to an investor in employee health and productivity. QuadMed was formed and opened their first clinic in 1991. Starting with a small worksite clinic at Quad/Graphics' plant in Pewaukee, Wisconsin, QuadMed took the bold, new approach of bringing nearly all primary healthcare services in-house – eliminating excess costs and bureaucracy in the process. The results have been extraordinary.

As word of their success spread, other companies turned to QuadMed to create and manage their onsite clinics and deliver accessible, affordable and high-quality health care for their employees. By focusing on wellness and prevention, QuadMed has become one of the most progressive and effective employer healthcare systems in the United States. Today, QuadMed provides workplace solutions on a national level to employers of all sizes. Now a nationally recognized leader in innovative employer-sponsored healthcare solutions, QuadMed provides comprehensive, integrated, patient care and wellness services with a strong focus on prevention and improved population health management; along with coordinated care through relationships with local hospitals, providers and specialists. Their model leverages health information technology, evidence-based medicine and strong provider-patient relationships to ensure that employees and their dependents have access to the highest quality healthcare available today.

After the tour, please join us for the **Chapter's Holiday Party** at Mo's Irish Pub. Heavy appetizers and drink tickets will be provided. We hope you stop by to celebrate the holiday season and network with your chapter members. Mo's Irish Pub is located at the corner of Hwy 100 & Bluemound Rd. and parking is available in the lot.
